

Welcome to Practical Systems

Our software products are developed specifically for Australian farmers and cater for all types of farming enterprise. Our business philosophy is to develop comprehensive management solutions that are practical and easy to use and help you maximise profit. Practical Systems products are used by thousands of farmers across Australia.

What is Cashbook Plus!?

Cashbook Plus! is a complete financial management solution to help agribusiness managers work smarter.

Developed in Australia by Australian farmers, Cashbook's easy to use jargon-free screens enable you to quickly and simply manage all your financial data, including GST, BAS, enterprise budgets, profit and loss, forecasts and even payroll.

Available in four levels, there is a version of Cashbook Plus! to suit your immediate business needs - and your future ones.

Ease-of-Use

- Simple, clear and easy to follow windows screens.
- Simple transaction entry via a single screen with full edit and delete options.
- Total consistency across all screen lists for viewing & entering data.
- Automatic “search as you type” drop down lists minimise keyboard use and data errors.
- Easy storage and retrieval of payee details, etc.
- On-screen hints and help.

GST Accounting

- Multiple GST rates/categories covering all items.
- Easy setup of GST including options for accounting method, reporting period, etc.
- Automatic calculation of GST amounts on transaction entry.
- Automated BAS return.
- Audit reports to verify GST amounts.

More than just a Cashbook

- Assets Register with depreciation.
- Detailed product/item tracking and inventory.
- Shares and investments register with full recording and analysis capabilities.
- Payroll, including printing of employee payment summaries on plain paper.
- Full budgeting available.
- Simple customer invoicing.

Save Time

- Fast setup “wizard” to get started.
- Print cheques directly.
- Automatic entry of recurring transactions.
- Electronic Funds Transfer.
- Automatic prefill of standard information from predefined lists.
- On screen calculators for GST, loan repayments and mathematical functions.

Budgeting

- Extensive budgeting features including multiple enterprise budgets.
- Monthly cashflow budgets up to 5 years ahead.
- Provides both cashflow and profitability budgets and related reporting.
- Automatic interest calculations.
- Integrated production planner.
- Multiple budgets for unlimited “what if” analysis.

Software that grows with you

- There is a level appropriate for all farms and small businesses.
- Just buy what you need.
- Upgrade at any time - simple telephone unlock code between levels.
