All of our current programs can be used on Windows 7. However, versions of Stockbook and Cashbook Plus! that were released prior to 2010 may not be compatible with the Windows 7 operating system.

Due to how Microsoft created the User Account Control there are some settings that need to be re-configured before Practical Systems programs will run.

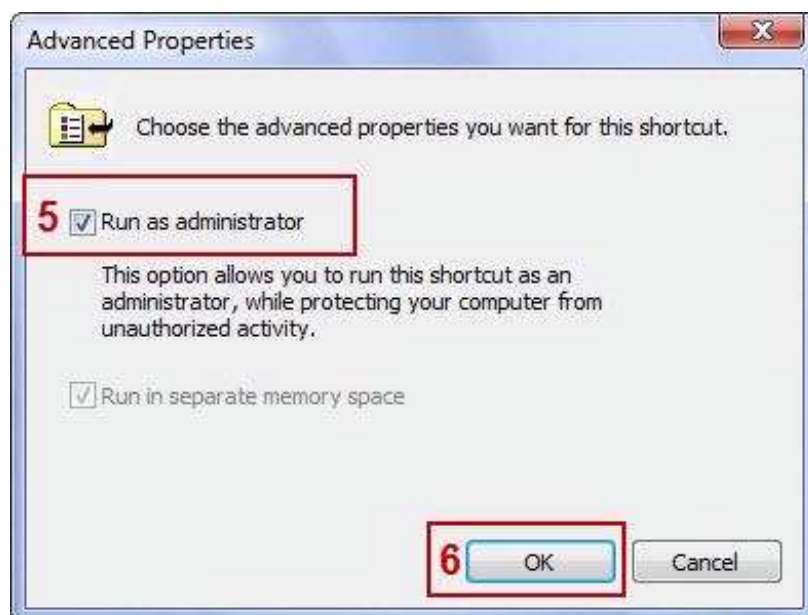

In order to run Farmbook and FarmMap on Windows 7 you will need to set the program to 'Run as Administrator' see instructions below.

1. Right click on the program icon on the Desktop.
 2. Go down to Properties and left click on it.
-

3. Check that you are on the Shortcut tab
4. Click on the Advanced... button.

5. Tick the Run as administrator check box.
6. Click OK.
7. Click Apply and then OK to close the properties window.
8. Restart your computer and open your Practical Systems program.
